

## Case Colors

Evolve cabinets and casework are available in stainless steel, compression board with laminate surface, or our proprietary AireCore, a durable, nonporous, and chemical- and corrosion-resistant material. AireCore is available with a glacier white painted surface and protective clear-coat finish or with a laminate surface.

For laminate options beyond our soft white standard, see our selection of laminates or specify a custom laminate.

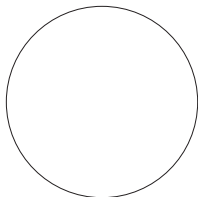

To order swatches, contact Customer Service: [cs@solaireportfolio.com](mailto:cs@solaireportfolio.com) or 888-435-2256.
